**Some games are just better played with a controller. This isn't only true for console games. Some games like even modern RPG games are often best experienced with a game controller rather than mouse and keyboard.**

This game controller is optimized for use with the PS4 but can also be used with your PC (Drivers are needed) smartphone and tablet. It comes equipped with 2 programmable macro buttons, 2 high-precision 3D joysticks, touchpad, motion sensor and vibration motors for that immersive gameplay.
